

February 13, 2018

Dear Madam/Sir:

This is to acknowledge that, Pincus Carlebach, on his own volition, is currently participating in the Fedcap's S.M.A.R.T. 'Developing a Healthy Lifestyle Founded on Different Thinking' course. It is important to note that while Mr. Carlebach has complied with the program's course completion criteria and group rules, this is only one step toward the process of change. The above course consisted of 10 didactic hours presented as follows:

- Making Good Choices
- How to Diffuse Potential Conflicts in Social Gatherings
- What is Cognitive Behavioral Therapy
- Addiction is a Brain Disease

These lessons focus on modelling and developing effective decision making and self-discovery skills to assist participant in the process of functional and stable re-entry. Upon his release, Pincus Carlebach, will also be linked to Fedcap's community-based support which consists of:

Employment & Retention Services  
Referrals for Clothing and Family Assistance  
Transportation  
Housing Services  
Job Development  
Substances-Use Treatment/Referrals  
VA Benefits  
Veterans Support Group

All of these services will provide guidance and essential connections for meeting various reintegration needs.

If you have any questions regarding Mr. Pincus Carlebach or our program please do not hesitate to contact Assistant Director Andre Cartier.

Respectfully,

*Andre Cartier*

Andre Cartier
